

# Business Monitoring Package

Security that makes  
business sense.

Premium quality protection with state of the art systems and highly visible patrol cars – 24 hours a day, every day of the year.

# Business Monitoring Package

## Comprehensive protection solution recommended for all business properties.

Combining the most popular products and services and designed to minimize the security risk to your buildings, plant and stock, our Coastcom Business Pack can be tailored to meet the particular needs of your company and provide the opportunity for substantial savings on your insurance premiums.

Coastcom Security's Business Pack offers maximum protection for all types of businesses on the Mornington Peninsula. With our 12 month service agreement, you'll have peace of mind knowing your security needs are met with state of the art technology. Leave the security of your business to us and you can get on with the job of running your business.

### Back To Base Alarm Monitoring 24 hours/365 Days per year

Coastcom Security's monitoring gives you protection by alerting the only A Grade Alarm Monitoring Control Room on the Mornington Peninsula of any security breach occurring at your premises.

### Alarm Response

In the event of alarm activation, Coastcom Security will send a Patrol Officer to check the premises and reset the alarm. If an offence has been detected, Coastcom Security will immediately notify Police and inform your nominated after-hours contacts.

### Late to Close Checks

Our Control Room checks that you have turned your system on by a certain time (normally 30 minutes after your usual closing time). If we have not received an arming by the required time, our operator will contact the premises to determine if there is still anybody on site. If the call is not answered, our operator will contact you to confirm if you would like us to re-alarm the system.

### Remote Download Access

Security systems installed by Coastcom Security have the ability to be accessed remotely by our Control Room via an active phone line. This allows our operators to program your alarm system without having to send a service technician to the premises, eliminating the cost of a service call in most instances.

### Twice Nightly Perimeter Spotlight Patrol

Coastcom Security's mobile patrols operate 24 hours/365 days per year on the Mornington Peninsula. The visibility of Coastcom Security's mobile patrols act as a deterrent against vandalism and break and enter. Frequency can be adjusted to suit your specific needs. Security breaches are reported immediately to your nominated contact.

### External Door Checks

In addition to a spotlight check, our patrol officers can manually check that your external doors are locked and secured. This service is available upon your request at an additional cost.
